

Scorecard for Accountability and Action

The entire population of Guinea-Bissau is at risk of malaria. The annual reported number of malaria cases in 2016 was 150,903 with 191 deaths.

Metrics

Commodities Financed and Financial Control	
LLIN financing 2018 projection (% of need)	100
Public sector RDT financing 2018 projection (% of need)	100
Public sector ACT financing 2018 projection (% of need)	100
World Bank rating on public sector management and institutions 2017 (CPIA Cluster D)	2.0
Insecticide Resistance Monitoring, Implementation and Impact	
Insecticide classes with mosquito resistance in representative sentinel sites confirmed since 2010	
Insecticide resistance monitored since 2015 and data reported to WHO	
National Insecticide Resistance Monitoring and Management Plan	
Scale of Implementation of iCCM (2017)	
Operational LLIN/IRS coverage (% of at risk population)	71
Reduced Malaria Incidence by >40% by 2020 (vs 2015) (projected)	
Tracer Indicators for Maternal and Child Health and NTDs	
Mass Treatment Coverage for Neglected Tropical Disease (NTD index, %)(2016)	1
Estimated % of Total Population living with HIV who have access to antiretroviral therapy (2017)	30
Estimated % of children (0–14 years old) living with HIV who have access to antiretroviral therapy (2017)	16
% deliveries assisted by skilled birth attendant	45
Postnatal care (within 48 hrs)	48
Exclusive breastfeeding (% children < 6 months)	53
Vitamin A Coverage 2016 (2 doses)	
DPT3 coverage 2017 (vaccination among 0-11 month olds)	87

Malaria

Progress

Guinea-Bissau secured sufficient resources to sustain coverage of ACTs, RDTs and LLINs in 2018. The country has also scaled up iCCM implementation.

Impact

The annual reported number of malaria cases in 2016 was 150,903 with 191 deaths.

Previous Key Recommended Actions

Objective	Action Item	Suggested completion timeframe	Progress	Comments - key activities/accomplishments since last quarterly report
Vector Control	Provide an update to WHO on mosquito insecticide resistance status, carry out insecticide resistance testing and develop and implement a national insecticide resistance monitoring and management plan	Q1 2017		The country is receiving support from WHO to finalise the planning for monitoring and management of insecticide resistance, as well as for entomological monitoring

MNCH and NTDs

Progress

The country has also achieved high coverage of the tracer MNCH intervention of exclusive breastfeeding.

Progress in addressing Neglected Tropical Diseases (NTDs) in Guinea-Bissau is measured using a composite index calculated from preventive chemotherapy coverage achieved for lymphatic filariasis, onchocerciasis, schistosomiasis, soil transmitted helminths and trachoma. Preventive chemotherapy coverage in Guinea-Bissau is high for trachoma (88%) and 47% for soil transmitted helminths. Coverage is low for lymphatic filariasis (0%), onchocerciasis (0%), and schistosomiasis (0%). Overall, the NTD preventive chemotherapy coverage index for Guinea-Bissau in 2016 is 1, which represents a decrease compared with the 2015 index value (9).

Previous Key Recommended Actions

Objective	Action Item	Suggested completion timeframe	Progress	Comments - key activities/accomplishments since last quarterly report
MNCH ¹ : Optimise quality of care	Address the decreasing vitamin A coverage	Q4 2018		Deliverable not yet due

Guinea Bissau has responded positively to the NTD recommended action addressing low coverage of Preventive Chemotherapy and continues to track progress as this action is implemented. Guinea Bissau has also responded positively to the MNCH recommended actions addressing low coverage of skilled birth attendants, ARTs in the total population and in children under 14 years of age and continues to track progress as these actions are implemented.

¹ MNCH metrics, recommended actions and response tracked through WHO MCA

New Key Recommended Action

Objective	Action Item	Suggested completion timeframe
NTDs	Based on the recent entomology results, investigate if some geographical areas may be ready to stop MDA for Onchocerciasis	Q3 2019
