

### Scorecard for Accountability and Action

Malaria transmission is more intense in the south of Mali. The annual reported number of malaria cases in 2017 was 2,097,797 with 1,050 deaths.

#### Metrics

Commodities Financed and Financial Control		
LLIN financing 2018 projection (% of need)	▲	100
Public sector RDT financing 2018 projection (% of need)		100
Public sector ACT financing 2018 projection (% of need)		100
World Bank rating on public sector management and institutions 2017 (CPIA Cluster D)		3.0
Insecticide Resistance Monitoring, Implementation and Impact		
Insecticide classes with mosquito resistance in representative sentinel sites confirmed since 2010		4
Insecticide resistance monitored since 2015 and data reported to WHO		
National Insecticide Resistance Monitoring and Management Plan		
Scale of Implementation of ICCM (2017)		
Operational LLIN/IRS coverage (% of at risk population)		100
Change in Estimated Malaria Incidence(2010–2017)		
Change in Estimated Malaria Mortality rate(2010–2017)		
Tracer Indicators for Maternal and Child Health and NTDs		
Mass Treatment Coverage for Neglected Tropical Disease (NTD index, %)(2017)	▲	90
Estimated % of Total Population living with HIV who have access to antiretroviral therapy (2017)		32
Estimated % of children (0–14 years old) living with HIV who have access to antiretroviral therapy (2017)		23
% deliveries assisted by skilled birth attendant		44
Postnatal care (within 48 hrs)		58
Exclusive breastfeeding (% children < 6 months)		31
Vitamin A Coverage 2016 (2 doses)		99
DPT3 coverage 2017 (vaccination among 0-11 month olds)		66

#### Key

	Target achieved or on track
	Progress but more effort required
	Not on track
	No data

## Malaria

### Progress

Mali has carried out insecticide resistance monitoring since 2015 and has reported the results to WHO. The malaria commodities required to achieve and sustain universal coverage in 2018 are financed. Mali has procured sufficient LLINs to achieve universal operational coverage. The country has carried out insecticide resistance monitoring since 2015 and has reported the results to WHO. Mali has significantly enhanced the tracking and accountability mechanisms for malaria with the development of the Malaria Control Scorecard. The country has decreased the estimated malaria mortality rate by more than 40% since 2010.

### Impact

The annual reported number of malaria cases in 2017 was 2,097,797 with 1,050 deaths.

### Key Challenge

- The country has funding gaps including for Seasonal Malaria Chemoprevention.

### New Key Recommended Action

Objective	Action Item	Suggested completion timeframe
Impact	Investigate and address the reasons for the increase in estimated malaria incidence between 2010 and 2017	Q4 2019

## MNCH and NTDs

### Progress

Mali has achieved high coverage of the tracer MNCH intervention of vitamin A. The country has significantly enhanced the tracking and accountability mechanisms with the development of a Reproductive, Maternal, Newborn, Child and Adolescent Health Scorecard.

Progress in addressing Neglected Tropical Diseases (NTDs) in Mali is measured using a composite index calculated from preventive chemotherapy coverage achieved for lymphatic filariasis, onchocerciasis, schistosomiasis, soil transmitted helminths and trachoma. Preventive chemotherapy coverage in Mali is high for trachoma (100%), for schistosomiasis (100%), and soil transmitted helminths (100%). Coverage is good for onchocerciasis (78%) and for lymphatic filariasis (74%). Overall, the NTD preventive chemotherapy coverage index for Mali in 2017 is 90, which represents substantial increase compared with the 2016 index value (35).

### Previous Key Recommended Actions

Objective	Action Item	Suggested completion timeframe	Progress	Comments - key activities/accomplishments since last quarterly report
MNCH <sup>1</sup> : Optimise quality of care	Investigate and address the reasons for the decrease in skilled birth attendants	Q1 2019		Deliverable not yet due

<sup>1</sup> MNCH metrics, recommended actions and response tracked through WHO MCA

The country has responded positively to the MNCH recommended action addressing the low coverage of ARTs, and continues to track progress as these actions are implemented.
