

Scorecard for Accountability and Action

Metrics

Commodities Financed and Financial Control	
LLIN financing 2017 projection (% of need)	100
Public sector RDT financing 2017 projection (% of need)	100
Public sector ACT financing 2017 projection (% of need)	100
World Bank rating on public sector management and institutions 2016 (CPIA Cluster D)	3.6
Insecticide Resistance Monitoring, Implementation and Impact	
Insecticide classes with mosquito resistance in representative sentinel sites confirmed since 2010	4
Insecticide resistance monitored since 2014 and data reported to WHO	
National Insecticide Resistance Monitoring and Management Plan	
Scale of Implementation of iCCM (2016)	
Operational LLIN/IRS coverage (% of at risk population)	100
Estimated change in malaria incidence rate (2010–2015)	
Estimated change in malaria mortality rate (2010–2015)	
Tracer Indicators for Maternal and Child Health	
Estimated % of Total Population living with HIV who have access to antiretroviral therapy (2016)	52
Estimated % of children (0–14 years old) living with HIV who have access to antiretroviral therapy (2016)	26
% deliveries assisted by skilled birth attendant	53
Postnatal care (within 48 hrs)	74
Exclusive breastfeeding (% children < 6 months)	33
Vitamin A Coverage 2014 (2 doses)	89
DPT3 coverage 2016 (vaccination among 0-11 month olds)	93

The annual reported number of malaria cases in 2015 was 502,084 with 526 deaths.

Malaria

Progress

Senegal has implemented iCCM country wide. The country has carried out insecticide resistance monitoring since 2014 and has reported the results to WHO. Senegal has secured sufficient resources to sustain universal coverage of essential malaria control interventions in 2017 and has achieved universal operational coverage of LLINs. Senegal has significantly enhanced the tracking and accountability mechanisms for malaria with the development of a Malaria Control and Elimination Scorecard. Senegal has put in place strong public sector management systems and has achieved a rating of 3.6 for Cluster D CPIA.

Impact

The annual reported number of malaria cases in 2015 was 502,084 with 536 deaths. WHO estimates that the country has achieved a decrease of 20-40% in the malaria incidence rate and a change of less than 20% for malaria mortality rate for the period 2010 - 2015.

New Key Recommended Action

Objective	Action Item	Suggested completion timeframe
Address funding	Work to accelerate the signature of the GF grant	Q4 2017

MNCH

Progress

Senegal has achieved high coverage of the tracer MNCH intervention vitamin A and DPT3 and has recently increased coverage of ARTs in the total population. The country has significantly enhanced the tracking and accountability mechanisms with the development of the Reproductive, Maternal, Newborn, Child and Adolescent Health Scorecard.

Previous Key Recommended Actions

Objective	Action Item	Suggested completion timeframe	Progress	Comments - key activities/accomplishments since last quarterly report
MNCH ¹ : Optimise quality of care	a) Work to accelerate coverage of ARTs especially in children under 14 years of age	Q1 2017		Deliverable not yet due but Senegal has achieved a 4% increase in ART coverage in the total population and by 5% in children. The country has completed the policy shift to Test-and-Treat all children and is working to enhance case-finding of HIV positive children. HIV programming is being integrated within routine child healthcare tools (EPI Card, iCCM tools). Community engagement for paediatric ART (including family testing, family disclosure, retention) is also planned.
	b) Investigate and address the reasons for the decreasing coverage of skilled birth attendants	Q2 2017		No progress reported
	c) Investigate and address the reasons for the decreasing coverage of postnatal care	Q4 2017		Deliverable not yet due

Senegal has responded positively to the MNCH recommended action addressing low coverage of ARTs in children and continues to track progress as this action is implemented.
