

Scorecard for Accountability and Action

Metrics

Commodities Financed and Financial Control	
LLIN financing 2017 projection (% of need)	100
Public sector RDT financing 2017 projection (% of need)	100
Public sector ACT financing 2017 projection (% of need)	100
World Bank rating on public sector management and institutions 2016 (CPIA Cluster D)	3.1
Insecticide Resistance Monitoring, Implementation and Impact	
Insecticide classes with mosquito resistance in representative sentinel sites confirmed since 2010	2
Insecticide resistance monitored since 2014 and data reported to WHO	
National Insecticide Resistance Monitoring and Management Plan	
Scale of Implementation of iCCM (2016)	
Operational LLIN/IRS coverage (% of at risk population)	100
Estimated change in malaria incidence rate (2010–2015)	
Estimated change in malaria mortality rate (2010–2015)	
Tracer Indicators for Maternal and Child Health	
Estimated % of Total Population living with HIV who have access to antiretroviral therapy (2016)	26
Estimated % of children (0–14 years old) living with HIV who have access to antiretroviral therapy (2016)	18
% deliveries assisted by skilled birth attendant	60
Postnatal care (within 48 hrs)	73
Exclusive breastfeeding (% children < 6 months)	32
Vitamin A Coverage 2014 (2 doses)	8
DPT3 coverage 2016 (vaccination among 0-11 month olds)	84

The entire population of Sierra Leone is at high risk of malaria. The annual reported number of malaria cases in 2015 was 1,569,606 with 1,107 deaths.

Key

	Target achieved or on track
	Progress but more effort required
	Not on track
	No data
	Not applicable

Malaria

Progress

Sierra Leone has secured sufficient resources to achieve universal coverage of LLINs, RDTs and ACTs in 2017 and has distributed sufficient LLINs to achieve 100% operational coverage. The country has scaled up the implementation of iCCM.

Impact

The annual reported number of malaria cases in 2015 was 1,569,606 with 1,107 deaths. WHO estimates that the country has achieved a decrease of 20-40% in the malaria incidence rate and a decrease of greater than 40% in the malaria mortality rate for the period 2010 - 2015.

New Key Recommended Action

Objective	Action Item	Suggested completion timeframe
Address funding	Work to accelerate the signature of the GF grant	Q4 2017

MNCH

Progress

Sierra Leone has enhanced the tracking and accountability mechanisms with the development of the Reproductive, Maternal, Newborn and Child Health Scorecard. Sierra Leone has responded to the challenge of the post ebola recovery. The country has developed and put in place a recovery plan and health systems building strategy and is mobilizing resources for it.

Previous Key Recommended Actions

Sierra Leone has responded positively to the MNCH recommended action addressing low coverage of ARTs and decreasing Vitamin A coverage and continues to track progress as this action is implemented.
