

Scorecard for Accountability and Action

Malaria transmission ranges from unstable and epidemic in Puntland and Somaliland to moderate in central Somalia to high in the south. The annual reported number of malaria cases in 2016 was 58,021 and 13 deaths.

Metrics

Commodities Financed and Financial Control	
LLIN financing 2017 projection (% of need)	83
Public sector RDT financing 2017 projection (% of need)	100
Public sector ACT financing 2017 projection (% of need)	96
World Bank rating on public sector management and institutions 2016 (CPIA Cluster D)	
Insecticide Resistance Monitoring, Implementation and Impact	
Insecticide classes with mosquito resistance in representative sentinel sites confirmed since 2010	3
Insecticide resistance monitored since 2015 and data reported to WHO	
National Insecticide Resistance Monitoring and Management Plan	
Scale of Implementation of iCCM (2016)	
Operational LLIN/IRS coverage (% of at risk population)	45
Change in malaria incidence rate (2010–2016)	
Tracer Indicators for Maternal and Child Health and NTDs	
Mass Treatment Coverage for Neglected Tropical Disease (NTD index, %)(2016)	0
Estimated % of Total Population living with HIV who have access to antiretroviral therapy (2016)	11
Estimated % of children (0–14 years old) living with HIV who have access to antiretroviral therapy (2016)	5
% deliveries assisted by skilled birth attendant	33
Postnatal care (within 48 hrs)	
Exclusive breastfeeding (% children < 6 months)	5
Vitamin A Coverage 2015 (2 doses)	33
DPT3 coverage 2016 (vaccination among 0-11 month olds)	51

Malaria

Progress

Somalia secured the majority of funding for the procurement and distribution of the majority of the ACTs and RDTs required in 2017. The country has scaled up iCCM.

Key Challenge

- A weak health system and relatively few partners limits scale up of core malaria interventions.

Impact

The annual reported number of malaria cases in 2016 was 58,021 with 13 deaths.

Previous Key Recommended Action

Objective	Action Item	Suggested completion timeframe	Progress	Comments - key activities/accomplishments since last quarterly report
Vector Control	Report to WHO on the status of insecticide resistance monitoring and prepare and implement a national insecticide resistance monitoring and management plan	Q1 2017		Somalia is working to finalise the national insecticide resistance monitoring and management plan by Q1 2018

MNCH and NTDs

Progress in addressing Neglected Tropical Diseases (NTDs) in Somalia is measured using a composite index calculated from preventive chemotherapy coverage achieved for schistosomiasis, and soil transmitted helminths. Preventive chemotherapy coverage in Somalia is low for both schistosomiasis (0%) and soil transmitted helminths (0%). Overall, the NTD preventive chemotherapy coverage index.

Previous Key Recommended Actions

Objective	Action Item	Suggested completion timeframe	Progress	Comments - key activities/accomplishments since last quarterly report
MNCH ¹ : Optimise quality of care	Work to accelerate coverage of ARTs in the total population and in children under 14 years of age	Q1 2017		Somalia is launching the implementation of the "Test and Treat" policy and Option B+ for PMTCT service delivery. This will be complemented by capacity building, training, and mentoring. The country is working to scale-up availability of both adult and paediatric ART services. Clinical guidelines and job aids to support ART are being developed. Training is being scaled up to strengthen integrated adult and paediatric ART capacity and ARTs are being procured using GF resources

¹ MNCH metrics, recommended actions and response tracked through WHO MCA

Somalia has responded positively to the MNCH recommended actions addressing low coverage and lack of data for a number of key interventions including skilled birth attendants, exclusive breastfeeding, postnatal care and vitamin A and continues to track progress as these actions are implemented.

New Key Recommended Action

Objective	Action Item	Suggested completion timeframe
NTDs	Implement Preventive Chemotherapy for Schistosomiasis and Soil Transmitted Helminths	Q4 2018
