

# Zimbabwe ALMA Quarterly Report Quarter Two, 2018

## Scorecard for Accountability and Action

### Metrics

Commodities Financed and Financial Control		
IRS financing 2018 (% of at-risk population)	<span style="background-color: #92d050;"> </span>	100
Public sector RDT financing 2018 projection (% of need)	<span style="background-color: #92d050;"> </span>	100
Public sector ACT financing 2018 projection (% of need)	<span style="background-color: #92d050;"> </span>	100
World Bank rating on public sector management and institutions 2017 (CPIA Cluster D)	<span style="background-color: #ffff00;"> </span>	2.8
Insecticide Resistance Monitoring, Implementation and Impact		
Insecticide classes with mosquito resistance in representative sentinel sites confirmed since 2010	<span style="background-color: #ffff00;"> </span>	3
Insecticide resistance monitored since 2015 and data reported to WHO	<span style="background-color: #92d050;"> </span>	
National Insecticide Resistance Monitoring and Management Plan	<span style="background-color: #ffff00;"> </span>	
Scale of Implementation of iCCM (2017)	<span style="background-color: #ffff00;"> </span>	
IRS Operational Coverage (%)	<span style="background-color: #92d050;"> </span>	92
Reduced Malaria Incidence by >40% by 2020 (vs 2015) (projected)	<span style="background-color: #ffff00;"> </span>	
Tracer Indicators for Maternal and Child Health and NTDs		
Mass Treatment Coverage for Neglected Tropical Disease (NTD index, %)(2016)	<span style="background-color: #ffff00;"> </span>	44
Estimated % of Total Population living with HIV who have access to antiretroviral therapy (2017)	<span style="background-color: #92d050;"> </span> ▲	84
Estimated % of children (0–14 years old) living with HIV who have access to antiretroviral therapy (2017)	<span style="background-color: #92d050;"> </span> ▲	89
% deliveries assisted by skilled birth attendant	<span style="background-color: #92d050;"> </span>	78
Postnatal care (within 48 hrs)	<span style="background-color: #ffff00;"> </span>	57
Exclusive breastfeeding (% children < 6 months)	<span style="background-color: #ffff00;"> </span>	47
Vitamin A Coverage 2016 (2 doses)	<span style="background-color: #ff0000;"> </span> ▼	35
DPT3 coverage 2017 (vaccination among 0-11 month olds)	<span style="background-color: #ffff00;"> </span>	89

Malaria transmission is seasonal in Zimbabwe with about 60% of the population at risk. The annual reported number of malaria cases in 2016 was 280,853 with 351 deaths.

### Key

<span style="background-color: #92d050;"> </span>	Target achieved or on track
<span style="background-color: #ffff00;"> </span>	Progress but more effort required
<span style="background-color: #ff0000;"> </span>	Not on track
<span style="background-color: #cccccc;"> </span>	No data
<span style="background-color: #ffffff;"> </span>	Not applicable

## Malaria

### Progress

Zimbabwe has secured the resources required for ACTs, RDTs, LLINs and IRS in 2018 and has achieved high coverage of vector control. The country has carried out insecticide resistance monitoring since 2015 and has reported the results to WHO. Zimbabwe has significantly enhanced the tracking and accountability mechanisms for malaria with the development of a Malaria Control and Elimination Scorecard. Zimbabwe was awarded the 2018 ALMA Award for Excellence for reducing malaria cases by more than 20 percent from 2015 to 2016.

### Impact

The annual reported number of malaria cases in 2016 was 280,853 with 351 deaths.

### Key Challenges

- The country reported malaria increases in 2017.
- There is a need to strengthen cross border collaboration with neighbouring countries.

## MNCH and NTDs

### Progress

Zimbabwe achieved high coverage of the tracer MNCH intervention skilled birth attendants. The country has recently increased coverage of ARTs in children and in the total population. Zimbabwe has enhanced tracking and accountability mechanisms with the development of a Reproductive, Maternal, Newborn, Child and Adolescent Health Scorecard.

Progress in addressing Neglected Tropical Diseases (NTDs) in Zimbabwe is shown using a composite index calculated from preventive chemotherapy coverage achieved for lymphatic filariasis, schistosomiasis, soil transmitted helminths and trachoma. Preventive chemotherapy coverage is high for lymphatic filariasis (79%), schistosomiasis (93%), and soil transmitted helminths (75%). Coverage for trachoma is low (7%). Overall, the NTD preventive chemotherapy coverage index for Zimbabwe in 2016 is 44, which represents a substantial increase compared with the 2015 index value (3).

### New Key Recommended Action

Objective	Action Item	Suggested completion timeframe
MNCH <sup>1</sup> : Optimise quality of care	Investigate and address the reasons for the decreasing vitamin A coverage	Q2 2019

### Key

	Action achieved
	Some progress
	No progress
	Deliverable not yet due
