Progress

Niger has banned the import and sale of oral artemisinin-based monotherapies and has introduced policies on Community Case Management of malaria and pneumonia. The country has achieved high coverage of the tracer MNCH intervention, vitamin A. The country has committed domestic resources to significantly close gaps in malaria intervention coverage and has sufficient financing to procure and distribute the majority of the ACTs required for 2015. Niger has achieved MDG4 by reducing under-five child mortality by over two thirds since 1990.

Impact

The annual reported number of malaria cases in 2013 was 4,391,189 with 2,209 deaths.

Previous Key Recommended Action

Objective	Action Item	Suggested completion timeframe	Progress	Comments - key activities/accomplishments since last quarterly report
Address funding	Ensure the GF New Funding Model concept note is submitted by Q4 2014 and ensure that resources are allocated to malaria control at a level that is sufficient to sustain the gains made in recent years	Q4 2014		The country has commenced work on the GF New Funding Model for submission in April 2015

Niger has responded positively to the recommended actions addressing low coverage of skilled birth attendants and exclusive breastfeeding, and continues to track progress as these actions are implemented.
