

### Scorecard for Accountability and Action

Malaria is endemic throughout Benin. The annual reported number of malaria cases in 2014 was 1,509,221 with 1,869 deaths.

#### Metrics

Commodities Financed and Financial Control		
LLIN financing 2016 projection (% of need)	57	
Public sector RDT financing 2016 projection (% of need)	86	
Public sector ACT financing 2016 projection (% of need)	42	
World Bank rating on public sector management and institutions 2014 (CPIA Cluster D)	3.3	
Insecticide Resistance Monitoring, Implementation and Impact		
Insecticide classes with mosquito resistance in representative sentinel sites confirmed since 2010	4	
Insecticide resistance monitored since 2014 and data reported to WHO		
National Insecticide Resistance Monitoring and Management Plan		
Scale of Implementation of iCCM (2013)		
Operational LLIN/IRS coverage (% of at risk population)	100	
>75% Decrease in Malaria Incidence Projected 2000–2015		
Tracer Indicators for Maternal and Child Health		
Estimated % of Total Population living with HIV who have access to antiretroviral therapy (2014)	37	
Estimated % of children (0–14 years old) living with HIV who have access to antiretroviral therapy (2014)	21	
% deliveries assisted by skilled birth attendant	77	
Postnatal care (within 48 hrs)	78	
Exclusive breastfeeding (% children < 6 months)	41	
Vitamin A Coverage 2013 (2 doses)	99	
DP T3 coverage 2014 (vaccination among 12-23 month olds)	70

<span style="background-color: #FFFF00; border: 1px solid black; display: inline-block; width: 15px; height: 10px;"></span>	Progress but more effort required
<span style="background-color: #FF0000; border: 1px solid black; display: inline-block; width: 15px; height: 10px;"></span>	Not on track
<span style="background-color: #808080; border: 1px solid black; display: inline-block; width: 15px; height: 10px;"></span>	No data/Not applicable

## Malaria

### Progress

Benin has made progress in malaria control including achieving universal coverage of vector control. The country has carried out insecticide resistance monitoring since 2014 and has reported the results to WHO.

### Impact

The annual reported number of malaria cases in 2014 was 1,509,221 with 1,869 deaths. WHO, through modeling, estimates that there has been a less than 50% decrease in malaria incidence between 2000 and 2015.

### Key Challenge

- Insecticide resistance threatens vector control effectiveness.

### Previous Key Recommended Action

Objective	Action Item	Suggested completion timeframe	Progress	Comments - key activities/accomplishments since last quarterly report
Address funding	Work to fill the outstanding gaps required to sustain full coverage of ACTs in 2015	Q1 2016		Benin is in process of reprogramming their grant savings to fill the outstanding gaps for 2016

### New Key Recommended Action

Objective	Action Item	Suggested completion timeframe
Vector Control	Given the reported mosquito resistance to 4 classes of insecticide, urgently finalise and implement the national insecticide resistance monitoring and management plan	Q1 2017

## MNCH

### Progress

Benin has made good progress on tracer MNCH interventions, in particular skilled birth attendants, vitamin A and postnatal care.

### New Key Recommended Action

Objective	Action Item	Suggested completion timeframe
MNCH <sup>1</sup> : Optimise quality of	Work to accelerate coverage of ARTs especially in children under 14 years of age	Q1 2017

<sup>1</sup> MNCH metrics, recommended actions and response tracked through WHO MCA
