

Scorecard for Accountability and Action

Malaria transmission is more intense in the south of Mali. The annual reported number of malaria cases in 2014 was 2,590,643 with 2,309 deaths.

Metrics

Commodities Financed and Financial Control		
LLIN financing 2016 projection (% of need)	100	
Public sector RDT financing 2016 projection (% of need)	100	
Public sector ACT financing 2016 projection (% of need)	100	
World Bank rating on public sector management and institutions 2015 (CPIA Cluster D)	3.0	
Insecticide Resistance Monitoring, Implementation and Impact		
Insecticide classes with mosquito resistance in representative sentinel sites confirmed since 2010	4	
Insecticide resistance monitored since 2014 and data reported to WHO		
National Insecticide Resistance Monitoring and Management Plan		
Scale of Implementation of iCCM (2013)		
Operational LLINIRS coverage (% of at risk population)	100	
>75% Decrease in Malaria Incidence Projected 2000–2015		
Tracer Indicators for Maternal and Child Health		
Estimated % of Total Population living with HIV who have access to antiretroviral therapy (2015)	28	
Estimated % of children (0–14 years old) living with HIV who have access to antiretroviral therapy (2015)	23	
% deliveries assisted by skilled birth attendant	60	
Postnatal care (within 48 hrs)	58	▲
Exclusive breastfeeding (% children < 6 months)	33	
Vitamin A Coverage 2014 (2 doses)		
DPT3 coverage 2015 (vaccination among 0-11 month olds)	68

Mali ALMA Quarterly Report Quarter Three, 2016

Malaria

Progress

Mali has carried out insecticide resistance monitoring since 2014 and has reported the results to WHO. The malaria commodities required to achieve and sustain universal coverage in 2016 are financed and Mali has procured sufficient LLINs to achieve 100% operational coverage. The country has carried out insecticide resistance monitoring since 2014 and has reported the results to WHO. Mali was awarded the 2016 ALMA Award for Excellence for Most Improved in Malaria Control between 2011 and 2015.

Impact

The annual reported number of malaria cases in 2014 was 2,590,643 with 2,309 deaths. WHO, through modeling, estimates that there has been a less than 50% decrease in malaria incidence between 2000 and 2015.

Previous Key Recommended Action

Objective	Action Item	Suggested completion timeframe	Progress	Comments - key activities/accomplishments since last quarterly report
Vector Control	Share the status of the national insecticide resistance monitoring and management plan with WHO	Q1 2017		Deliverable not yet due but the country has requested technical assistance for the development of their national insecticide resistance and monitoring plan

MNCH

Progress

Mali has significantly enhanced the tracking and accountability mechanisms with the development of a Reproductive, Maternal, Newborn and Child Health Scorecard.

Previous Key Recommended Actions

Objective	Action Item	Suggested completion timeframe	Progress	Comments - key activities/accomplishments since last quarterly report
MNCH ¹ : Optimise quality of care	Work to accelerate coverage of ARTs in the total population and in children under 14 years of age	Q1 2017		Deliverable not yet due but Mali has increased ART coverage by 2% in the total population and by 3% in children. The country has supported the policy shift to Test-and-Treat all children and Option B+ for PMTCT and is working to enhance community engagement. Mali aims to improve the quality of medical care through capacity building for prescribers, patient education, and shifting ARV prescription tasks to paramedics; and implementing community-based case management (including psychosocial support, active searching for patients lost to follow-up, home visits, community days)

Mali has responded positively to the MNCH recommended action addressing low coverage of exclusive breastfeeding and lack of data on vitamin A and continues to track progress as this action is implemented.

New Key Recommended Action

Objective	Action Item	Suggested completion timeframe
MNCH ¹ : Optimise quality of care	Identify and address reasons for decreasing DPT3 coverage	Q3 2017

Key

	Action achieved
	Some progress
	No progress
	Deliverable not yet due
