

Scorecard for Accountability and Action

Malaria transmission ranges from unstable and epidemic in Puntland and Somaliland to moderate in central Somalia to high in the south. The annual reported number of malaria cases in 2014 was 26,174 and 14 deaths.

Metrics

Commodities Financed and Financial Control		
LLIN financing 2016 projection (% of need)	42	
Public sector RDT financing 2016 projection (% of need)	100	
Public sector ACT financing 2016 projection (% of need)	93	
World Bank rating on public sector management and institutions 2015 (CPIA Cluster D)		
Insecticide Resistance Monitoring, Implementation and Impact		
Insecticide classes with mosquito resistance in representative sentinel sites confirmed since 2010	3	
Insecticide resistance monitored since 2014 and data reported to WHO		
National Insecticide Resistance Monitoring and Management Plan		
Scale of Implementation of iCCM (2013)		
Operational LLINIRS coverage (% of at risk population)	31	
>75% Decrease in Malaria Incidence Projected 2000–2015		
Tracer Indicators for Maternal and Child Health		
Estimated % of Total Population living with HIV who have access to antiretroviral therapy (2015)	8	
Estimated % of children (0–14 years old) living with HIV who have access to antiretroviral therapy (2015)	4	
% deliveries assisted by skilled birth attendant	33	
Postnatal care (within 48 hrs)		
Exclusive breastfeeding (% children < 6 months)	5	
Vitamin A Coverage 2014 (2 doses)	30	
DPT3 coverage 2015 (vaccination among 0-11 month olds)	42	

Key

Green	Target achieved or on track
Yellow	Progress but more effort required
Red	Not on track
Grey	No data/Not applicable

Malaria

Progress

Somalia has secured adequate funding for the procurement and distribution of the majority of the ACTs and RDTs required in 2016. The country has scaled up iCCM.

Impact

The annual reported number of malaria cases in 2014 was 26,174 and 14 deaths. WHO, through modeling, estimates that there has been a less than 50% decrease in malaria incidence between 2000 and 2015.

Previous Key Recommended Actions

Objective	Action Item	Suggested completion timeframe	Progress	Comments - key activities/accomplishments since last quarterly report
Address vector control coverage	Address falling LLIN coverage	Q4 2016		Deliverable not yet due
Vector Control	Report to WHO on the status of insecticide resistance monitoring and prepare and implement a national insecticide resistance monitoring and management plan	Q1 2017		Deliverable not yet due

MNCH

Previous Key Recommended Actions

Objective	Action Item	Suggested completion timeframe	Progress	Comments - key activities/accomplishments since last quarterly report
MNCH ¹ : Optimise quality of care	Work to accelerate coverage of ARTs in the total population and in children under 14 years of age	Q1 2017		Somalia is working to scale-up availability of both adult and paediatric ART services. Clinical guidelines and job aids to support ART are being developed. Training is being scaled up to strengthen integrated adult and paediatric ART capacity and ARTs are being procured using GF resources

Somalia has responded positively to the MNCH recommended actions addressing low coverage and lack of data for a number of key interventions including skilled birth attendants, exclusive breastfeeding, postnatal care and vitamin A and continues to track progress as these actions are implemented.
